Entered at the Postoffice, Maysville, Ky., as Second Class Mail Matter
RATES IN ADVANCE: By Carrier or Mail, \$3 per year; \$1.75, Six Months; 40 Cents per Month.

OUR POLICY:

To support such measures as are unquestionably for the good of Mason County as an entire community, rather than such propositions as are in favor of the individual interest, or of one section as against another. And likewise to earnestly and consistently oppose all things that are not for the good of the county as a whole.

SUPERVISING LABOR UNIONS.

While it may reasonably be assumed that the effort now being made in New York to bring about the enactment of Legislation giving the state industrial commission power to prevent strikes and lockouts, and to supervise labor unions generally, is a direct result of the disclosures made in the report of the Lockwood legislative committee, it is true that the tendency in many sections of the United States to bring all labor organizations and voluntary associations of workers definitely under the supervision of the law. The tendency is a natural one, in view of rapidly changing industrial and social conditions.

Labor itself, because it has, no doubt through necessity, attained to a class consciousness as clearly identifiable as an entity as are the varied classes or combinations of capital, has compelled recognition of its actual and potential strength of its power for good, and of its opposite tendencies. Gradually the understanding is being gained that this heretofore innocuous entity has become an active living factor in the body politic. There began, a generation ago, a definite movement to regulate public utilities, such as the railroads and other agencies in whose continued proper operation the rights of the public were found to be paramount, and this asserted power of supervisory control was extended gradually to combinations of capital as the wealth of powerful financial institutions and the captains of industry became combined in trusts. Likewise the need is now being realized of asserting the right of the public in the control and supervision of labor unions, which have become no less powerful in their way than the other combinations mentioned, no less necessary to the continued convenience and prosperity of the people, and no less harmful when wrongly directed and controlled.

The law will never attempt to direct or control the activities of the individual industry. That is to say, the artisan who pursues his vocation may do so without molestation, just as the farmer or the blacksmith, in his little shop at the crossroads, work or not as they choose. But when the artisan surrenders his initiative to another or to a combination of individuals who assert the right to trade upon or to dictate his industrial policies, he places himself logically and reasonably in the class with other trusts and combinations and may expect to be subjected to the measures of regulation and control applied to a general class, no matter what its component parts.—Christian Science Monitor.

NO SUBSIDY, NO SHIPS.

The United States Shipping Board believes it may require an annual subsidy of \$32,000,000 to keep the flag of the American merchant maine on the high seas. To provide the money it is proposed to set aside ten per cent of the customs receipts. It is also proposed that the United States sell its ships, take its losses and get out of the shipping business.

President Harding approves and urges the subsidy. Before Congress recently he dealt with out shipping situation frankly and honestly. With the President the Nation knows Government-owned shipping has been a colossal mistake and a gigantic failure; that we must get out of the shipping business and return to "private initiative."

That handwriting has been on the wall for months; since 1919, in fact. We have been pouring as high as \$16,000,000 a month into the shipping sinkhole. The entire Shipping Board situation resolved itself into a chaotic tangle that was a scandal in the national nostrils. We had failed, and at a ruinous cost.

Traditionally and unweariedly this country has fought ship subsidies. It has been wrongheaded and stubborn about it. The war was our great teacher. In 1918 and 1919 we decided that never again would be left helpless. We slambanged into an emergency, building ships wastefully. We emerged from the crisis with 12,000,000 tons of steel shipping, costing \$3,500,000,000, and under Government ownership it has been costing us more millions for three years. In two months it swallowed up more money than the proposed subsidy will cost in a year at its maximum.

The President has turned back to private ownership as the one way out of an impossible situation. Congress has come to the valley of decision. That soft and oft-sung pancea for ills and evils—Government ownership—had had its trial and failed. Nationally we have been converted to the need of a merchant marine, American ships for American shipping. Industry for inland and agriculture have had their lesson, and it is no longer a geographical issue.

If we are to have ships, they must be privately owned and operated. If they are to keep on the sea, they must be aided, for a time at least, by subsidies and subventions, and we must overcome the traditional hatred for those long-hated words. The alternative is to watch the American flag fade from the world ports and sea lanes.—Philadelphia Public Ledger.

THE BONUS AND TAXATION.

If there is to be bonus legislation adding a huge sum to the obligations of the government Secretary Mellon wants no deceit about it. Fairness to the service men and to the taxpayers alike demands an honest facing of the facts.

As to the proposal to use the foreign debt, either principal or interest, as a fund out of which to meet the claims of the soldiers, let us call the project by its right name. It is a fraud. If a bonus is to be paid it must be met out of new taxation.

To leave no doubt Mr. Mellon says: "If there is to be a soldiers' bonus it is clear it must be provided for through new taxation, and through taxation in addition to the taxes imposed by existing law." The prospective Treasury deficit for the fiscal year 1922-1923 would become \$1,000,000,000 if these proposed bonuses are paid, and this sum is too large to be balanced except by additional revenue.

Congress, acting within the scope of its constitutional jurisdiction, has hitherto not been inclined to follow the advice of the country's chief financial officer. But, though the advice is disregarded, this in no way removes the hard facts on which it is based. Huggen-nugger tactics will not put a dollar in the treasury, whether for a bonus or anything else.—New York Tribune.

FILMS BIG BOON TO EDUCATION IN GOOD CITIZENSHIP

Immigrant and Native-Born Alike Draw Vital Lessons From the Screen So Says Educator.

Chicago. — The young immigrant thought he had narrowly escaped arrest when the traffic cop halted the crowds at a busy State street crossing. It was not until at night school he saw an Americanization film picturing the operation of safety-first rules, declared Jaroslav J. Zmrhal, Chicago District Superintendent of Schools, that his fears were dispelled.

"It took the motion picture with its universal language to make that young Lithuanian understand that the traffic police had a friendly purpose—the protection of life and limb," said Superintendent Zmrhal to a representative of the Society of Visual Education, which is furthering the movement for instruction in citizenship for both native and foreign-born.

Educating the foreigner by means of the film is a task to which civic and patriotic organizations everywhere are today giving earnest attention. Superintendent Zmrhal told, for example, about the very practical form of service which is being rendered by the Illinois Society of Colonial Dames, of which Mrs. Paul Blatchford of Oak Park is president. They have a portable projector which they lend to foreign districts—Polish, Italian, Lithuanian, Bohemian and Greek—for the screening of Americanization films which the organization supplies free.

Their lectures precede the film showing with a short talk and lead the crowd in the singing of patriotic songs. "There has been a noticeable increase in the attendance at the night classes and lectures since motion pictures have been available, although even with the stereoscopic slide a great interest was manifested," said Mr. Zmrhal. "In the Hammond school, after we ran the good citizenship reels such as those produced by the Society for Visual Education, there was a marked gain in attendance. The men found the screen answering their questions in a way they could easily understand, and they urged their friends and relatives to attend the classes. Those who were working for their naturalization papers were particularly delighted with these lessons in picture language."

Superintendent Zmrhal emphasized a point in the effective use of educational films which needs to be stressed wherever motion pictures are employed for teaching rather than for entertainment. That is, he insists upon the absolute necessity of gaining "active attention" by bringing out in a preliminary talk the purpose of the film lesson and asking questions which the screen will later answer.

"Before running the picture I call the attention of the class to the main points I want them to notice," said Mr. Zmrhal. "We do not want them to take for granted the services our government is performing for us every day."

"From the picture they discover it is our government that protects their homes from fire; that guarantees them freedom to worship God as they please; that gives their children free education in beautiful school buildings; that guarantees the purity of their food; that puts public parks, hospitals and libraries at their service. These services are all pictured in the Society's film, 'A Citizen and His Government,' and so are driven home to these foreigners as could be done in no other way. I try to make them understand that all these benefits imply corresponding duties and responsibilities to the government that serves them. This I consider of the utmost importance. It is difficult for us to realize what a revelation the screen story is to these men, many of whom have been here only a few months."

After the film has been run, teachers in many foreign centers make a practice of using the subject-matter of the picture as a basis for conversation in English, and have members of the classes write letters telling what they have learned from the screen.

"We speak of Americanizing our foreign-born, but it is no less true that there is need of Americanizing Americans."

Not in America alone are such films needed, according to Superintendent Zmrhal. Citizens of the new democracies abroad need equally to understand their obligations to their government and to realize that the government will be exactly what they make it. What we call "Americanization films" can be used to interest immigrants not only in America but, in a much broader sense, in democracy as well.

QUIT OF WORK GIVES TO RELIEF

Kentucky Man Sends in Subscription to American Jewish Relief Fund Although He Is Not Himself A Jew

Head of A Family of Seven And Without Work, Yet He Gives To The Relief of Starving Jewish People In Europe

Although not a Jew himself, and although he is out of work and the sole support of a family of seven, yet S. W. Glascock, of Greenville, Ky., was so stirred by the appeal of the American Jewish Relief Committee for the relief of starving and destitute orphans and men and women in Central and Eastern Europe that he has sent in a contribution of \$7 to the headquarters of the Relief Committee, National Theater Building, Louisville.

In a letter to Col. Fred Levy, of Louisville, State Chairman of the campaign to raise \$150,000 in Kentucky, Mr. Glascock says:

"Enclosed find check for \$5 to help the starving people in Europe. Please take and use this to help the needy. I am no Jew, but I have sympathy for that starving nation and do hope you will be successful in raising the amount you intend. Also \$2 for the destitute children. This is the amount I promised my Saviour to give these needy people over one year ago. So my promise is fulfilled today, yet I am a poor man with 7 in my family without work and have been for some time, but yet I feel disposed to help these people as the Great Master has been kind to me in my distress. Thanking you for your kindness in this great work, and I hope you won't have much trouble in raising your amount."

The appeal of the American Jewish Relief Committee is particularly directed to Jewish people but subscriptions in any amount will be gladly received from people of all faiths.

HERBERT HOOVER ENDORSES CAMPAIGN

Secretary of Commerce And Relief Expert Commends Work For Relief of Stricken Jewish People In Europe

Declares That The Jewish People In America Have Always Responded Liberally To All Efforts To Alleviate Distress

Probably no man in this country is better acquainted with conditions in Europe than Herbert Hoover, Secretary of Commerce. Mr. Hoover has written David A. Brown, Chairman of the American Jewish Relief Committee, New York, fully endorsing the work of that organization which is seeking to raise \$14,000,000 for the relief of starving and destitute Jewish people in Central and Eastern Europe.

Kentucky's share in the national campaign is expected to add at least \$150,000 to the fund. Fifty thousand dollars is to be raised in the state and \$100,000 in Louisville. While the campaign is under the direction of the Jewish people and subscriptions will be solicited largely from them, all who are in sympathy with the movement may contribute and their money will be gratefully received.

The letter from Secretary Hoover follows:

"Dear Mr. Brown: Each year when the American Jewish Relief Committee has made its appeal, I have had the honor of commending its work to the American people and likewise each year I have observed the continued necessity and the continued high efficiency of its service."

"It has always maintained a broad-mindedness in the matter of race and religion and has given its support, both financial and moral, to every effort in the alleviation of human distress."

"I trust the Committee will have the same support again that it has had hitherto."

CULLS SHOULD GO FIRST IN HEAVY POULTRY SALES.

Lexington, Ky. — With carloads of poultry being shipped out of the state each week at this time of the year, it is important that Kentucky farmers take special care to save their best hens and sell the culls if they wish to grade up their flocks, poultrymen at the College of Agriculture said here recently. The heavy sale of poultry, which is common at this time of the year and which will continue for several weeks, can wreck the standard of the state's flocks unless such care is taken, the poultrymen say.

"When handled, heavy producers will show a great depth of body, especially at the front and rear of the keel bone," J. H. Martin, in charge of the college poultry work said. "The deeper and more slab-sided the bird feels, the more apt she is to be a heavy layer. This depth may be measured easily by taking the bird in the two hands with the wings folded and the head toward the person holding her and circling her body with the thumbs on the middle of the back and the fingers spread apart to measure the length of the keel. The keel should be moderately straight, relatively long and carried well back along the body."

"The hand also should be spanned across the back at the hip bones with the finger's well over the sides and carried towards the tail. This measurement will give the bird width and show whether or not it is carried to the tail."

"Hens with high vitality are the desirable ones to save. This vitality will be indicated by a broad, deep head; bright, prominent eyes; long, deep body; strong, parallel legs, stylish carriage and an active disposition. On the other hand, hens that are 'crow headed,' have dull, sunken eyes; short, shallow bodies; knock knees; a droopy appearance of alay, sluggish disposition are weak in vitality and should be among the first ones to go to market."

KANSAS CLOUDBURST CAUSES FOUR DEATHS.

Emporia, Kans., March 23. — Four persons were drowned and eight or nine persons are reported missing in a cloudburst at Burlington tonight, according to reports reaching here. The report said ten inches of water fell and in places the water in the city had reached the second story windows.

Ledger Service—Efficiency.

MRS. LULA VANN FULTON, ARK.

Suggests to Suffering Women the Road to Health

Fulton, Arkansas. — "I used Lydia E. Pinkham's Vegetable Compound for a soreness in my side. I would suffer so badly every month from my waist down that I could not be on my feet half the time. I was not able to do my work without help. I saw your Vegetable Compound advertised in a newspaper and gave it a fair trial. Now I am able to do my work and don't even have a backache every month. I cannot praise your Vegetable Compound enough and highly recommend it to those who have troubles like mine. I am willing for these facts to be used as a testimonial to lead all who suffer with female troubles, as I did, to the right road to health." — Mrs. LULA VANN, Box 43, Fulton, Arkansas.

It is this sort of praise of Lydia E. Pinkham's Vegetable Compound, given by word of mouth and by letter, one woman to another, that should cause you to consider taking this well-known medicine, if you are troubled with such symptoms as painful periods, weak, nervous feelings, miserable pains in your back, and cannot work at certain times.

Here is a woman who is so grateful and glad to be relieved from a painful and nerve-racking physical condition that she wishes to tell all sick women.

New York Letter

by Lucy Jeanne Price

New York. — Westerners who relate in vain the wonder of living on a mountain which gives them an earlier and later glow of the sun because of their elevation above the horizon and the surrounding country have nothing on the pitted denizens of Manhattan sky-scrapers. "My office on the thirty-fourth floor gains a whole hour's daylight," said one man the other day. "It makes that much actual difference in my working schedule, too." New York not only has the highest buildings in the world, but they stand for the most part near the center of Manhattan Island, decidedly higher than the rivers and exposed to the sun when it rises and sets. After the sun sets at the street it takes almost half an hour for it to disappear from the view of a fifth man at the top of the building.

—NY—
Women who vote and sit on political party committees and share all the rest of the burdens and rights of citizenship are not going to let a figure of a man disdaining the efforts of woman to pull him from his high moral perch be the symbol of civic virtue in our city—not without protest, at least. The much talked of sculptured group which was to face the City Hall has aroused a clamor on the part of these same women and poor Mayor Hylan is beginning to grasp something of the meaning of woman scorned. He has consequently written a letter to the Board of Estimate, suggesting that in view of the fact that objection has been made that the statue degrades womanhood, it might be well to have a public hearing on it before it is set in place.

—NY—
We are at last having exhibitions in our shop windows of the really long neckties. Those of us who sputtered a few months ago when the edict went forth for eight and nine inches from the floor instead of twelve and fourteen have no alternative left now except to gasp instead of sputter. Why eight inches will look like a bathing suit compared to these drooping hems—if we finally accept them.

—NY—
Albert Bruning in Shaw's "Back to Methuselah," now being produced in three sections by the Theater Guild, undoubtedly holds the endurance championship. So far as any records

show, he has the most lines to memorize and give of any actor in any part in the history of the drama. Hamlet has always been the record role so far as that is concerned, and in one of the three sections alone, Mr. Bruning matches Hamlet. Hamlet has 10,000 words, but they are almost always cut and are scattered through the five acts. Mr. Bruning has 6,000 in one act.

—NY—
The announcement that two young women of this city, Miss Cordelia Lee and Miss Grace Hofheimer, have been awarded scholarships at the Fontainebleau School of Music calls attention to the new use to which this beautiful and historic palace just outside of Paris is now dedicated. The French government in expressing its appreciation of the assistance given by America to needy French musicians during the war, has turned over this wonderful building for a summer school of music for Americans. The appointments are made or approved by the governor of each of our states. The American committee through its chairman, Mrs. George Montgomery Tuttle, of East Seventy-fifth street, announces that one hundred scholarships have been awarded for the coming season.

—NY—
In this season of unusual plays, there will be still one more far removed from the ordinary dramatic expectations. It is "Taboo," which will open next month for a series of special matinees. The play tells a story of voodooism, and is said to handle the question neither from the standpoint of ridicule or of propaganda, but simply to discuss it and show it. Margaret Wycheley will head the cast.

WORK WILL BEGIN ON PARK OF PARIS BASEBALL CLUB TODAY.

Paris, Ky., March 23. — Eads and Doan were awarded the contract for building the bleachers, grandstand and fence for the park of the Paris baseball club. The park will be located on the Dodge property, which was used last year. About \$1,000 worth of improvements will be made, the work starting tomorrow, to be finished in time for the Boston Red Sox game in Paris, April 8.

SIR HARRY LAUDER CALLS FOR HELP

Noted Scotch Comedian In Letter To Col. Fred Levy Endorses The American Jewish Relief Committee Campaign.

Kentuckians Are Urged To Joint The Rest of The Country In Contributing Funds For The Relief of Starving And Destitute Jewish People In Europe.

Sir Harry Lauder, the great Scotch comedian, is firmly of the opinion that in helping the stricken people of Europe, Americans will also be helping themselves. Upon a recent visit to Louisville, Sir Harry wrote a letter to his friend, Col. Fred Levy, State Chairman for Kentucky of the American Jewish Relief Committee, endorsing heartily the efforts of that organization to raise \$150,000 in the state for the starving orphans and men and women of Central and Eastern Europe. Sir Harry declared that it is as much the business of the non-Jew as it is of the Jew that Europe gets on her feet at the earliest possible moment.

While the campaign in Kentucky is being conducted by Jewish people and while the appeal for aid is made to them direct, all who desire to give are urged to do so and are assured that their contributions will be gratefully acknowledged.

Sir Harry's letter follows:

"Dear Col. Levy:
"I am so impressed on just learning that you, as well as a great many others, are devoting valuable time to conducting a campaign here for relief of the many destitute Europeans, that I wondered if it would not help your organization to know that the kindness of heart impelling busy men to sacrifice time and give large sums for this purpose, is bound to be repaid a thousandfold by the benefits this country will derive if the much needed help at this time will enable Europe to get back to normal.

"I do not know whether you have ever heard any one else express this thought which stands out vividly in my mind, but it seems to me that if the business men of the United States would stop to realize that Europe is the market of the world, and must be put right before this country can itself get right, that you would have no difficulty in your task. The man who claims he is not interested in the welfare of these people is simply blind to the fact that the secret of the depression here is complaining of here is found in the dead standard of starving, homeless and destitute Europe, which only craves a chance to get back on her feet. Poor Europe!

"I have recently seen conditions throughout Europe and I speak from first hand knowledge. We have finished with battleships—now we need friendships—the brotherhood of man! I wish you great success—and for the good of both Europe and the United States don't fail. I know Scotchmen don't know the word failure—be Scotch on this occasion.

"Cordially yours,
"HARRY LAUDER."

JEWISH PEOPLE TO STAGE CAMPAIGN

KENTUCKIANS WILL RAISE MONEY TO HELP STARVING AND DESTITUTE PEOPLE OF EUROPE.

Col. Fred Levy of Louisville and Chairman of State Campaign And Irvin Marcus is State Director —Headquarters in Louisville.

During the latter part of March, the Jewish people of Kentucky are to join in the great campaign now being carried on by the American Jewish Relief Committee for the relief of the stricken Jewish people of Europe.

Since the great world war started the Jewish people of this country have raised practically \$50,000,000 for this work. Every cent of the money has been spent. According to the best figures of men who have just returned from personal inspection of conditions in Central and Eastern Europe, \$14,000,000 more must be supplied at once of the stricken Jews there are given adequate aid.

Already enthusiastic and effective campaigns have been carried on from Maine to California, and from Minnesota to Texas. Reports from these campaigns show that never before have the Jewish people of this country rallied to the cry of their stricken brothers and sisters in Europe as they are doing today.

Every state quota has been reached and passed—a most remarkable showing. Cities in which it was predicted that the campaign appeal would find no response are surpassing the fondest hopes of the campaign managers. Chicago's quota of \$1,000,000 was raised to \$1,800,000 and oversubscribed. Cities, Milwaukee, St. Joseph, Mo.,

Kansas City, Los Angeles, Baltimore, and other cities have exceeded their quotas.

Kentucky's campaign organization is in the hands of Colonel Fred Levy of Louisville, Chairman. Irvin Marcus of Louisville is director of the state drive. Headquarters are in complete operation on the third floor of the Keith National Theatre Building in Louisville.

TOP DRESSING HELPS CLOVER AND BOOSTS WHEAT YIELDS.

Lexington, Ky. — Top dressing wheat with an application of about four tons of stable manure an acre in many cases has resulted in average increases of as much as eight bushels an acre in the yield of the crop, according to experimental results being cited by soil specialists at the College of Agriculture to show Kentucky farmers the value of the method. Top dressing quickens the growth of grain in the spring and encourages a good stand of grass or clover if these are grown in wheat.

Top dressing with straw also is recommended provided it is applied early and at the rate of not more than one ton an acre. This practice has increased wheat yields from one to two bushels an acre and improved the stand of clover. If used at this time of the year, straw should be applied only to poor land where wheat does not succeed and where it is difficult to obtain a stand of clover.

Care should be taken in top dressing wheat to see that the manure is not applied too heavily. Coarse manure should be avoided as much as possible.

Many farmers who are troubled with gullies in which it is difficult to obtain a stand of grass are using manure as a top dressing to good advantage, the specialists say. Top dressing, which helps the growth of grass, has been found to be one of the most efficient methods of stopping gullies and washing, they say. If the supply of manure is limited, those parts of the field that are subject to washing could be top dressed most profitably, the specialists have pointed out.

WATSON FURNAL SERVICES WILL BE HELD ON APRIL 4.

Louisville, Ky., March 23. — Arrangements for the funeral of Henry Watterson were announced tonight. The body will arrive from Jacksonville, Fla., the evening of April 3 and services will be held at the First Christian church at 3 o'clock, April 4. Burial will be in Cave Hill cemetery.

Active pallbearers will be: Robert W. Bingham, Wallace T. Hughes, Harrison Robertson, W. B. Phillips, Frank B. Stouffer, Frank Jackson, Tom Wallace, Brainerd Platt, W. D. Binford and Arthur Krock.

Among the honorary pallbearers are: Governor Morrow, Lieutenant Governor Ballard, George Harvey, American ambassador to Great Britain, Mayor Huston Quinn, Senators Stanley and Ernst, Johnson N. Camden of Versailles, and many celebrated newspaper men.

BUSINESS CONDITIONS.

Improvement in business with increased stability in underlying conditions characterize the period from February 16 to March 15. Prices of the major commodities have shown only normal fluctuations. Many lines of industry give evidence of increased activity and there appears to have been some decrease in industrial unemployment. Retail trade over the counter is reported as unsatisfactory, but mail order houses generally show an increase in business, attributable to the improved purchasing power and mental attitude of the farmer, due to the rise in agricultural prices.

Wholesale trade is generally reported to be better, although a considerable degree of caution wisely prevails. The rate of iron and steel production has increased, but the volume of forward orders still remains restricted. Immediate demand for boots and shoes is less active and other sections of the hide and leather trade continue to lag. The cotton textile situation is handicapped by strikes in the New England cotton mills. Wool manufacture is operating at a fair rate, although the demand for woolen and worsted fabrics has been disappointing. There has been a marked increase of activity in the manufacture of automobiles, tires and accessories. Car loadings have increased materially during recent weeks. Exports are at a low level, but this is normally the season of a light export movement. Business failures have declined in number since the beginning of the year. The past month has shown improvement in fundamental conditions, and consequently in business sentiment, as has been the case each month since mid-summer of 1921. The period of extreme discouragement in the United States has now passed and there is widespread and justified confidence in the long future.

Rev in Maysville. It says:

EVER HAVE IT!

If You Have, the Statement of This Maysville Citizen Will Interest You.

Ever have a "low-down" pain in the back?

In the "small" right over the hips? That's the home of backache.

If it's caused by weak kidneys. Use Doan's Kidney Pills.

Maysville people testify to their worth. Read a case of it: Mrs. R. L. Mattingly, 207 West Second street, Maysville, says: "I was in a bad condition with my back and kidneys. I couldn't get my proper rest at night owing to the dull misery in my back. I was feeling so miserable I often had to let my housework go undone. I was dizzy by spells and also suffered from rheumatic pains. I have been so bad that I couldn't walk without pushing a chair in front of me and my lower limbs were very painful. My kidneys were in a bad condition owing to their irregular action. My mother had used Doan's Kidney Pills successfully and that led me to send to Wood & Son's Drug Store and get a couple boxes. After using them I was all right. I have felt well since using Doan's and recommend them gladly."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Mattingly had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

EIGHTEEN ARE KILLED BY BLAST IN COLORADO MINE

Explosion in Coal Mine Buried Eighteen Workmen—Nine Bodies Have Been Recovered—Rescue Work Continues.

Trinidad, Colo., March 25. — Nine charred and burned bodies had been recovered from the Sycamore Coal Mine near here today, while rescue crews worked feverishly to locate nine other men still entombed following an explosion late yesterday.

Eighteen men were in the mine at the time of the blast.

The explosion hurled the top of the ventilation shaft high in the air. Workmen on the surface hastily constructed a new ventilator shaft to clear the mine of fumes.

First efforts to get into the mine were unsuccessful because of the heat from the blast. It was nearly an hour before squads with oxygen helmets could enter.

The first bodies were brought to the surface two hours after the explosion. The ninth body was recovered at 9:30 p. m.

The explosion occurred 3,000 feet below ground and the missing men are believed to be 50 feet back in the mine.

Hundreds of persons including frantic relatives of the entombed men, crowded around the mine entrance after the explosion.

BIG SALE CLOSED.

The big furniture sale which has been in progress at R. G. Knox & Company's big furniture store, will be closed Saturday. A great many bargains will be offered Saturday evening as the finale of the big sale.

VANCEBURG POSTOFFICE ROBBED OF \$37 AND STAMPS

Postoffice at Lewis County Capital Was Robbed Monday Night—Inspector on Job Offers Reward.

The Vanceburg Leader says: Sometime between the hours of 10 o'clock and daylight Monday the local postoffice was broken into and robbed of some \$37.

It is not yet fully determined just how the thieves gained entrance to the building, but the front window was found broken and it was found that the side window had also been tampered with.

A Cincinnati postoffice inspector who was on the scene Wednesday, said the postal authorities would pay \$200 reward for the capture and conviction of the robbers.

It seems that in the past several weeks there has been an epidemic of petty robberies here, all supposedly by home talent.

SENATE PASSES FOUR-POWER PACT BY VOTE OF 67 TO 27

Opponents Force Thirty-three Roll Calls During Four and a Half Hours Session Set Apart for Consideration of Measure.

Washington, March 24. — The four-power treaty, the center of controversy over accomplishments of the Washington Arms Conference was ratified by the Senate Friday with no reservation except the "no-alliance" declaration proposed by the Foreign Relations Committee and accepted by President Harding.

The final vote of 67 to 27, represented a margin of four over the necessary two-thirds was recorded after the opponents of ratification had made more than twenty unsuccessful attempts to qualify Senate action by reservation or amendments distasteful to the administration. On the deciding roll-call twelve Democrats voted for the treaty and only four Republicans opposed it.

Dying hard, the irreconcilable element, which had opposed the treaty on the ground that it established an alliance between the United States, Great Britain, Japan and France, forced thirty-three roll-calls during a four and a half hours session set aside for final action on the resolution of ratification. They made their best showing on a proposed reservation to invite outside powers into Pacific "conferences" affecting their interests, mustering thirty-six votes for the proposal to fifty-five in opposition.

The committee reservation was accepted in the end by a vote of 90 to 2, two attempts to modify it falling by overwhelming majorities. It declares that "the United States understands that under the statement in the preamble or under the terms of this treaty there is no commitment to armed force, no alliance, no obligation to join in any defense."

MISSIONARY WAS ACCIDENT VICTIM.

St. Louis, March 25. — The Rev. J. C. Ogden, missionary returned from Batang, China, believes that Dr. A. L. Shelton, who was killed near Tibet, February 17, was shot by accident. Dr. Shelton was greatly beloved because of his services as medical missionary, said Dr. Ogden, who is expected to go to Cincinnati, his former home, in a few days.

CUTS THROATS OF SONS AND SUICIDES.

Cleveland, Ohio, March 25. — Crazy by domestic difficulties growing out of six months' unemployment, according to the police, Frank Szuch, 41, slashed early today throats of his two small sons, Frank, Jr., 11, and Henry, 5, and then committed suicide by slashing his throat and wrists with a razor. The two sons are in a serious condition, hospital physicians say.

FUNERAL HELD SATURDAY.

The funeral of Mrs. Martha Rumford, who died Thursday at the home of Mr. and Mrs. Gus Tolle, in the county, was held at the gate at the Maysville cemetery Saturday morning.

NOTICE
